

My Dear Students,

As you all know we are passing through a very critical phase in our lives due to the outbreak of a very dreaded disease called Corona Virus (COVID-19) Worldwide. So we in India are under Lock Down for 21 Days to save ourselves from this pandemic. There is a possibility of this Lock Down to be extended. But to be safe we better follow all instructions of the Govt.

I request you all to maintain good discipline during your long stay inside your own homes with your near and dear ones. This is a nice time to enjoy your life with family members.

You must utilise your indoor life happily. Learn to do all kinds of household works, help your parents/guardians, brothers and sisters, learn to be self dependent, play indoor games, study as much as you like and do your Online Studies/ Assignments as instructed by your teachers. Remember, you have to complete your courses also.

Do not spend your valuable time by using Mobile Phones only.

This is my sincere advise to you all.

I hope to see you all in good health and spirit once the College reopens.

Dr. Pranab Sandilya

Principal

Guwahati College
